

Adding Links to a Blog Sidebar
Teachers: <http://inside.isb.ac.th/wp-admin>
Students: <http://blogs.isb.ac.th/wp-admin>

1. Make sure you have the Links widget activated by going to:

- *Appearance, Widgets*
- Click *Add* next to the widgets you would like
- Organize your widgets by clicking and dragging them in order
- Click *Save Changes*

2. To add links to your new sidebar widget, click on *Links, Add New*

4. After you've added the details for the link, click *Add Link*.

You'll need to repeat this process for each link you want to add to your sidebar.

3. On the Add New Link page, fill in the *Name* (the name of the blog), *Web Address* (the URL of the blog), and check off the appropriate *category*.

All student URLs begin with: <http://blogs.isb.ac.th/>
All teacher URLs begin with: <http://inside.isb.ac.th/>

If you need a new category, click *Add New Category* above your existing categories and type one in.
